ENDURO JAM

At Maydena Bike Park we have over 70 different trails crisscrossing down our hill, resulting in virtually endless trail combinations. Offering 9 unique stages over the course of the weekend, the Enduro Jam combines the best of our trail network with our favourite aspects of racing by using a jam format. Fit for any racers level, we will be hosting an Open Jam, which has 2 stages per day, comprising blue and black trails. There is also a Pro Jam which will race the same 2 stages as the Open Jam, with an additional Pro Stage down one of MBP's spicier tech trails.

Each day riders have as many opportunities as they like to set times on each of those stages and only their fastest time will be kept. In classic MBP fashion all liaison stages are going to be shuttle accessed, which means there is no climbing required! Live leaderboards will be active all day for each stage, which gives riders the opportunity to set times, and move up the ranks throughout the day.

Ultimately, the Enduro Jam is designed to provide a laid-back race environment, where riders can find their limit while experiencing the wide array of trails at Maydena Bike Park
